

Revenue Cycle Management

Accounts Receivable & Insurance Collection

- Our aim is to improve your cash Flow by reducing days in A/R and improving profitability by increasing collections ratio.
- Our methodology revolves around identifying category/payer combinations and work on resolving the mix that results in best collections efforts.
- Ability to correctly process insurance information depending upon HMOs, PPOs, IPAs is our strength.

Patient Follow-ups & Collections

- Our skilled staff is trained to identify patient accounts that require follow-up and take the necessary action to collect outstanding balances.
- Knowledge of Fair Debt Collection Act
- Monthly Statements are sent.
- Our experienced team of professionals carefully execute follow-up processes on all unpaid and partially paid claims.

Billing Services include:

- Electronic Medical Claims Processing
- Posting of chargers and payments
- Secondary Billing
- Patient Statements
- Insurance Claims Follows-up
- Aging Reports and Financial Reports

Why Outsource to a Medical Billing Service? The benefits include:

- Eliminates expense of billing software and hardware
- Frees you from the billing and collection process
- Reduces the expense of staffing
- Eliminates the worry of billing staff loss
- Reduces costly and unproductive training
- Allows you to focus more on patient treatment
- Assures compliance of the billing process
